

NEW RANGE OF ORGANIC TEAS

FOR IMMEDIATE RELEASE

May 2008

EAST HANOVER, NJ –Harrisons & Crosfield Teas Inc. has expanded its line of English quality teas to include a comprehensive range of high-end organic teas in 20 count teabag boxes that is uncompromisingly delicious.

“Our new line of organic teas have an elegant, high-end packaging with attractive colors that effectively communicates the unparalleled quality and distinction of our tea blends and appeals to a discerning consumer and that is who we developed our teas for.” states Al Sharif, President of Harrisons & Crosfield, with 15 years experience in the English tea industry. “We are committed to expanding our product line to meet the growing market needs. The emphasis we place on quality in buying, blending and packaging our teas makes us the Gold Standard in Tea.”

Our teas taste better because...

- Our tea bags contain 25% more premium hand-plucked tea than the average teabag. This brews a rich, full-bodied great tasting cup of tea.
- The English style teabag provides more surface area for a better infusion, releasing the full flavour.
- Our teas are imported in bulk from England and packed in the U.S. to maximize freshness.
- Boxes are made with 100% recycled material

The teas are certified NOP in England by Organic Farmers & Growers (OF&G) and again in the U.S. by Pennsylvania Certified Organic (PCO) and are Kosher certified, many for Passover under the supervision of the National Kashruth of Monsey, NY.

The extensive range includes:

- Assam
- Ceylon
- English Breakfast
- Scottish Breakfast
- Earl Grey
- Green
- Green with Jasmine
- Green with Passion Fruit
- White with Pomegranate
- White with Blackcurrant
- White with Lemon and Orange

About Harrisons & Crosfield Teas

Harrisons & Crosfield is unique in that its USA based staff works closely with its London based tea blenders to create teas that meet or exceed renowned British tea industry quality levels & appeal to American tastes. These gourmet English teas are then shipped to the U.S. for packaging to guarantee freshness. By combining British tea and American tea industry expertise, Harrisons & Crosfield is able to create white teas, green teas, black teas, flavored teas and herbal teas products that have the superior quality traditional English tea blending provides, yet package these gourmet teas in the form Americans want: organic teabags, organic loose leaf tea, pyramid nylon teabags (silken sachet), tagged teabags and iced teas for food service tea and retail teabags packaging. The wide line includes all naturally flavored white teas, flavored black teas, flavored green teas and flavored herbal teas as well.
