### **About Harrisons & Crosfield**

Harrisons & Crosfield Teas was founded in 2002 with a mission to create teas that meet or exceed renowned British tea industry quality levels and appeal to American tea drinker’s tastes. Its teas are blended in England to exacting British standards and shipped to the U.S. for packaging to ensure optimum freshness. Each tea bag contains 25 to 50% more tea than the typical American tea bag, resulting in richer cup of tea. Its comprehensive line includes more than 32 varieties of black, green and white, herbal, decaffeinated and organic teas available in loose leaf tea, tea bags and iced teas. Most teas are Kosher certified, many for Passover.
